RECINZIONI E BARRIERE PARAVENTO

Sono ideali per delineare gli spazi esterni con eleganza e stile, proteggere dal vento lasciando tutta la bellezza del panorama e della luce.

Le RECINZIONI e BARRIERE PARAVENTO Protezioni hanno una solida struttura in alluminio con cristalli trasparenti, satinati o colorati. Disponibili anche con illuminazione a LED rappresentano una soluzione suggestiva e innovativa per giardini e dehors.

They are fences and windbreak screens ideal to define outdoor spaces with elegance and style and to protect from wind, giving at the same time the possibility to enjoy light and panorama.

Protezioni's RECINZIONI and BARRIERE PARAVENTO are provided with a strong aluminium structure with transparent, frosted or coloured glass panels. Thanks to LED lighting as an optional, they could be a suggestive and innovative solution for gardens and dehors.
